10. FIM Enduro Vintage Trophy 2026

Zschopau – Germany | 29.09.–03.10.2026 | IMN 415/01

Information on Camera Recordings

Dear fellow competitors,

As the organiser of the 10th FIM Enduro Vintage Trophy, we are frequently asked about the use of action cameras, such as GoPro cameras or similar products, and drones.

In addition to the fact that all camera mounts and cameras on helmets are prohibited, I am extending this prohibition to the rider's body and the motorcycle. I am aware that nowadays it has become almost normal to film everything and everyone and then publish the footage. As Clerk of the Course, rider safety is my highest priority. I cannot and do not wish to accept responsibility for riders using cameras mounted on their chest or improvised constructions on the handlebars, as is often seen.

For good reason, we require approved chest protectors and handlebar pads to protect riders; it would therefore be contradictory to permit components that create additional hazards.

Camera mounts on the body or motorcycle are not permitted.

Drones may only be operated in accordance with the applicable legal requirements. They must not pose any hazard or cause any disturbance to riders.

Zschopau, 2 September 2026

Signed by the Clerk of the Course
